DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims state that the band has a U-shaped link. The drawings fail to disclose a U-shaped link. The link (5) is a loop-shape not a U-shape. The examiner suggests changing "U-shaped" to "loop-shaped".

Claim 1 also claims the wearer in the last two lines of the claim: "said wearer". "said wearer" lacks antecedent basis. The examiner suggests changing "said wearer" to "a wearer".

Allowable Subject Matter

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 2-4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: the exhaustive search of the prior art has failed to uncover an ornamental arm band comprising a rigid plate having a lateral recess in an edge of the plate wherein a

springy arm band is rigidly attached to one end of the plate and has a loop-shaped link rigidly attached to the other end of the band wherein the loop-shaped link is adapted to settle in the recess because of the bias of the springy band, i.e., the springy band holds the loop-shaped link in the recess to attach the arm band to the arm of a wearer.
